Final Prizes Awarded April 30, 2020
codevid19.com

01

WHAT IS CODEVID-19?

CODEVID-19 is a globally focused pandemic hackathon organized to encourage the rapid creation of tools and solutions specifically for solving new problems arising as the world adapts to the COVID-19 outbreak. Our objective is to improve the quality of life of people during the pandemic, and we believe that fostering rapid development of pandemic solutions is crucial.

With your assistance, we will be providing mentorship and prizes for over 600 participants from around the world. Hackathons provide a ground floor from which teams can imagine, design and innovate, and this event will be a catalyst for creating some of the key resources that will be used the world over in the weeks to come.

HOW CAN YOU HELP?

By sponsoring CODEVID-19, you can help make a difference across the globe. While financial contributions are important for prizes and supporting our hackers, ultimately our goal is to foster useful and sustainable applications that can help the world. We strongly encourage contributions of tools and resources such as web hosting, cloud computing, and other services that can help participants create lasting solutions.
